

MASSACHUSETTS MOMS ALERT!

OUR CHILDREN AND OUR DEMOCRACY ARE AT RISK!

Once upon a time there were two kings. They got married and lived happily ever after...
Starting in kindergarten, children in Massachusetts are being read stories like this one.

1. **DO YOU KNOW** that promoting homosexual education to our children in schools may become **MANDATORY** at all grades starting in kindergarten if the same-sex marriage ruling is not changed to restore the traditional definition of marriage between one man and one woman?
FACT: Because of the same sex marriage ruling, children are already being openly taught **graphic homosexual sex** in many schools throughout the Commonwealth.
2. **DO YOU KNOW** that the homosexual lifestyle has a very high risk of early death from HIV and other diseases?
FACT: The male-to-male-homosexual sex act has a **5 times greater risk** per act of transmitting HIV to a healthy recipient than heterosexual sex. Click on the following US Government fact sheet link: "HIV/AIDS among Men Who Have Sex with Men" <http://www.cdc.gov/hiv/resources/factsheets/print/msm.htm> and see for yourself the negative outcome of teaching schoolchildren the distorted public health message that *homosexuality is equivalent to heterosexuality*.
3. **DO YOU KNOW** that same-sex marriage threatens our democracy by curtailing our freedom of speech, and our religious freedom on issues relating to homosexuality, leading to religious persecution?
FACT: The mere criticism of homosexuality is already considered a *hate crime* in Sweden and Canada.
FACT: Here in Massachusetts, Catholic Charities had to close its 100 years old adoption agency because the same sex marriage ruling required it to place children for adoption in homosexual households!
FACT: Our right to vote on traditional marriage is already being hotly debated!
